	ÁNYK form for other administrative purposes for clients with access to an official customer portal

The Information is effective as of 31 May 2019.

The purpose of the form is to provide the opportunity to customers with access to official storage space to submit their petitions directly to anybody carrying out general police tasks in cases where no structured (ÁNYK) forms are available.

In order to ensure efficient administration, a separate ÁNYK form is required for each case.

Any number of annexes may be attached to the case (at least 1 attachment) up to the size limit referring to the ÁNYK forms (up to a maximum of 300 Mb).

Completion of the reference number is optional; if there are antecedents, it is recommended to fill it in.
